

V8 CORPORATE DRIVE DAY EXPERIENCE

Looking for an intense, highly instructive course and sensational fun day? Then look no further than the MSE Events Group Corporate Drive Day Experience.

Our Corporate Driving programs are emerging as the preferred course to properly train staff to deal with the many dangers on our roads today. The course is designed with a mix of pressurised practical activities, followed by the exhilaration of V8 Super Car Hot Laps, providing a great combination to achieve real learning outcomes without being boring.

Properly structured driver training is a crucial part of the occupational health & safety requirements of successful forward-looking companies. It will definitely save money on repairs, insurance and down time but most importantly it can save your business' most important resources – the life and wellbeing of your staff.

Course key points include:

- Learn the correct lines for high speed cornering
- How to make faster and smoother gear changes including heel-toe down changes
- Skid control techniques and myths.
- High speed car control
- Learning to not "overdrive" so as to reduce lap times.
- How to make a circuit "flow" by correct use of vision to link corners.
- Personal written evaluation

The package includes;
