

Targeted to businesses who want to enhance individual, team and organisational performance. Performance Plus+ is a business improvement program which utilises the principles, practices and talent of the biggest sporting club in the country and applies them to your organisation.

MSE Events Group in conjunction with the Collingwood Football Club are proud to offer this truly unique opportunity to you and your business.

Programs are typically conducted at the newly upgraded and named Holden Centre (home of the Collingwood Football Club) which is a State of the Art High Performance Training Facility dedicated to enhancing the performance of Collingwood. Holding the day at such a superb venue sets the right tone and environment for this unique experience.

The day itself will incorporate industry leaders such as a member of the Coaching Staff (including Senior Coach Nathan Buckley if available), CEO Mark Anderson*, High Performance & Strategy Manager Marcus Wagner* & Leadership & Culture Manager Nick Maxwell*. Areas that are covered throughout the day include topics such as the Essence of Leadership, creating a High Performance Culture and getting the best out of yourself.

We have designed the program to be not only memorable and motivational but also with a strong educational element. We really want you and your people to walk away with a clearer understanding as to how they, their teams and organisation can get closer to fulfilling their performance potential.
